

Owners Matt & Joyce cordially invite you to Short and Stout Tea.

Our visits to tea farms around the world ensure the best teas for you.

Drinking tea is fun and exciting! There is no wrong way to prepare or drink tea as long as you are enjoying it. We can, however, offer suggestions on making it more convenient, tastier and stylish. We proudly serve high quality whole leaf tea in traditional form and fusion blends.

What is Matcha?

Matcha is ground green tea with the consistency of flour. It takes 24 hours to grind a pound of quality matcha. To make a cup of it, all you need is a half teaspoon of matcha whisked into warm water. Matcha is popular here in the US because the health benefits are greater than regular green tea due to the consumption of the leaves as opposed to just the steeped infusion. This also means increased caffeine for alertness and L-theanine which calms and soothes the mind.

Our matcha comes directly from the farm - freshly ground for us in small batches when we order.
